

Exeter Carbon Club

The low carbon
business network

The aim of the Club is to provide practical solutions to enable your business to identify and realise financial savings, growth opportunities and carbon reductions. To help companies in Exeter through these hard economic times we are offering the membership and services of **Exeter Carbon Club** for FREE!

Join the Exeter Carbon Club to:

- Save money through improved resource efficiency - *up to 20% off your bills*
- Gain higher profit margins with reduced costs - *20% off your bills could be the same as a 5% increase in sales*
- Learn how to grow your business in a Low Carbon Economy, worth £106 billion
- Attend **free** workshops on best practice from industry experts
- Receive an exclusive carbon and utilities tracker, including training
- Access **free** expert on-site advice

In the last few years **Global Action Plan**, through the **Envision** project, has worked with over 500 businesses and identified savings of £4 million.

"New low carbon markets, increasing climate change legislation and new business risks to manage. The choice isn't whether to engage but when. Leading businesses have already started the journey and are seeing real business benefits."

Paul Turner, Head of Sustainable Development,
Lloyds Banking Group
